

David Meinen, CISSP

Chief Information Officer

Joined SIAA in 2021

As SIAA's Chief Information Officer, David oversees a sophisticated, multi-platform and multi-state IT system that encompasses computing, telecommunications, networking, security, and acquisition integrations. Recognized as an international executive and business leader, David has over 20 years of tangible results in applying business acumen, technical expertise, and commercial and financial knowledge to ensure IT creates business value, supports corporate vision, improves the customer journey, and drives strategic initiatives through innovative technology leadership.

Prior to joining SIAA, David served as CIO and Vice President of Information Technology at TÜV SÜD America, a subsidiary of the Munich-based TÜV SÜD AG, a global inspection, testing, and certification company. In that role, he was responsible for developing and executing IT strategy, operations, and security across multiple entities in several countries. He was also involved in seven acquisitions, including the largest acquisition in TÜV SÜD's 150-year company history.

David holds a Master of Science degree in International Economics from Eastern University and a Bachelor of Arts in Economics from Gordon College where he was a member of the Delta Mu Delta National Honor Society for Business Administration. In addition, he earned a Certificate in Strategy and Innovation from the MIT Sloan School of Management and has completed their Artificial Intelligence: Implications for Business Strategy Program. He has also attained both ITIL v3 Certification and CISSP Certification.
